2013-2014

TAFE Ultimo

KEY SKILLS

Technical

- Competency in data structures, security, and operating systems.
- Java (Eclipse, Android Studio): Achieved High Distinction in Java1,2, and Mobile Computing subjects.
- C# (Visual Studio): Developed an MVC web application with authentication function.
- HTML, CSS, JavaScript: Completed full-stack web development course on Udemy.
- Dart (Flutter): Developed the frontend of a music SNS application as a final project.
- React.js, React Native: Developing a weather forecast mobile app for kayaking.

Communication & Teamwork

- Served as team leader for 4 out of 7 group projects during my academic course, successfully managing and completing projects by coordinating with team members, assigning tasks, and ensuring timely delivery of project milestones.
- Manage students' academic progress by providing guidance and resolving issues as needed, while collaborating with faculty members and department heads to suggest improvements and support academic operations. *Approximately 35 cases per week

Project Management & Sales Experience

- Managed sales and installation projects for Mitsubishi equipment in new constructions for 4 years.
- Developed strong time management skills by coordinating installation schedules and ensuring timely completion of projects.
- Enhanced negotiation skills through regular interactions with clients, suppliers, and contractors to secure favourable terms and resolve issues.

Projects - details in personal website

Full-stack Web App Project

URL: <https://yelpcampimu.onrender.com/>

Full-stack web application for managing and sharing campsites, with a primary focus on CRUD operations (Create, Read, Update, Delete) using RESTful APIs.

Technologies: HTML, CSS, JavaScript, Bootstrap, Node.js, Express.js, MongoDB

GitHub repository: <https://github.com/ryotaest/yelpcamp>

Mobile App Development Project

Developed the frontend of a cross-platform mobile application using Flutter. This application is designed for users to connect through music, featuring functionalities such as live chat, user search, friend requests and more.

Technologies: Flutter, Dart, Android Studio, XCode

GitHub repository: <https://github.com/ryotaest/yourtunesworld>
